Short press "▼" to switch 10 vibrating modes of clitoral stimulation.

Short press "⏻" to pause the vibration.

To turn off the device, long press "⏻" until the light turns off.

## USB CHARGING

**\*WARNING: Please DO NOT use adaptor with ">5V" output**

- Before charging, ensure that there are no traces of water or lubricant residue around the DC port. Insert the DC plug into the DC port and ensure it is securely connected.
- When the power is turned on, the LED indicator will flash to indicate charging is in progress. Once charging is complete (typically within 2 hours), the LED indicator will remain solid.

## PRODUCT CLEANING

- It is recommended to use a water-based lubricant. Silicone-based lubricants should be avoided, as they may cause the silicone to become permanently tacky. Massage oil or hand cream should never be used as lubricants with the vibrator.
- After use, clean the silicone with warm water and antibacterial soap. Rinse with clean hot water and gently pat dry with a lint-free cloth or towel. Do not use cleansers containing alcohol, petrol, or acetone, as these can damage the material.
- Store the vibrator in a dust-free place, away from direct sunlight and extreme heat. Keep it separated from toys made of other materials to ensure its longevity.

## SAFETY

- Do not use it at temperatures over 167 °F/75 °C.
- Stop using it when any discomfort occurs.
- It is recommended to use it with water-based lubricant.
- Do not use it if you find the product unsmooth or damaged.
- Keep out of reach of children.
- For adult use only.
- Individuals who are pregnant, have a pacemaker, diabetes, phlebitis, or thrombosis should consult with a medical professional regarding the risk of blood clots before using any personal massage product.
