PRODUCT CLEANING

- **Cleaning:** Wash the dildo with warm water and mild soap, then rinse it with hot water (up to 50°C). Be careful to avoid getting water into the switch and charging port during cleaning. Use your fingers to wash and knead the product, avoiding brushes or harsh, acidic cleaners.
- **Wiping:** After washing, wipe the product with a lint-free cloth or towel to dry.
- **Maintenance:** Always turn off the power after use to avoid potential damage to the product or power supply. Store the product in a flannelette or dust bag, and keep it in a cool, dry place.

SAFETY

- Please do not place the product in any location where heat cannot dissipate.
- This is a personal hygiene item, so do not share it to avoid bacterial infection.
- Although the product has many functions, please avoid overusing it, as excessive use may reduce sensitivity.
- It is recommended to use the product with a condom and professional lubricating fluid for optimal experience.
- Please stop using the product immediately if you feel unwell or if it becomes damaged.
- Do not substitute professional lubricating fluid with massage oils, skin creams, gasoline, acetone, or other chemicals.
- Clean the product immediately after use and store it properly to avoid bacterial infection.
- After cleaning and maintenance, store the product in a cool, dry, and private place. If not in use for a long time, recharge it before reuse to prevent battery depletion. For battery-powered products, please remove the batteries before storage.
